To provide the best service and produce for our members, we are limiting the program to 45 members. We will sign up members on a first-come basis.

Program Description

Each week, we will provide a seasonal selection of vegetables and fruits. We will mix in organic produce where feasible.

The boxes that are used for the program are plastic totes. A deposit must be placed on the totes when you come the first week. Each member has 2 boxes, one for the pick up week and one for the following week. Each week you must return the previous week's box clean and ready to be used. The deposit on the boxes will be \$10 and will be returned to you at the end of the season. If you prefer, you may use your own tote.

The selection in the box is for that week, with no substitutions available. If you can't use something in the box you may leave it at the market for another member to enjoy. Note that this program is great for those who are willing to try the produce selected by us. We look forward to

seeing you every week and receiving your feedback. If you prefer to choose your own produce, please feel free to come into our market and select those things your family enjoys without a CSA membership.

If you need other items, please call the market to add other items to your order to make your shopping more convenient.

Also, if you have a favorite recipe, please pass it along to us to share with other CSA members. We are always looking for ways to prepare fruits and vegetables for others to enjoy.

Sincerely,

Beriswill Family and Farm Market Staff
